

Does Your Family Member Have An Addiction? You Are Not Alone. Join Us!

Addiction impacts everyone who comes in contact with an addict, especially family and friends. It can be an overwhelming, stressful and difficult time that affects relationships, health and even faith. In keeping with our core mission to provide support for those affected by addiction, LTM hosts a monthly support group for families to provide a lifeline for those seeking information, understanding and compassion in a confidential, non-judgmental environment.

Support Groups provide a supportive environment to:

- > Enhance coping skills
- > Promote self-care
- > Provide psychoeducation
- > Offer guidance and resources

LTM Support Groups are facilitated by:

Louie Zaino, LCSW
Licensed Clinical Social Worker
40 Years of Experience
